Huawei solar panels on Ukraine roof

Overview

Are solar panels a new commodity in Ukraine?

Nazariy Hychka surveyed the roof of the Kyiv maternity hospital he runs as workers installed a scarce and suddenly vital new commodity in Ukraine: solar panels. Waves of devastating drone and missile attacks by Russian forces have again crippled Ukrainian power plants, causing blackouts and forcing Ukrainians to plan for the worst.

Is solar a viable alternative to traditional energy in Ukraine?

Bondarenko, the renewable energy researcher, said that while solar is useful in a bind, it was less stable than traditional sources. Ukrainian authorities would need to overhaul the energy system to dramatically increase its share in the country's energy mix, he added.

Can solar energy help a blackout in Ukraine?

As Ukrainians learn to cope with rolling power blackouts, they are coming to embrace solar energy as a way to mitigate the damage Russia keeps trying to inflict on them. Workers are installing solar panels on the roof of Maternity House No. 3 during a partial electricity blackout in Kyiv on J. Anatolii STEPANOV / AFP.

Did workers install solar panels on the roof of Kyiv maternity house?

Workers are installing solar panels on the roof of Maternity House No. 3 during a partial electricity blackout in Kyiv on J. Anatolii STEPANOV / AFP Nazariy Hychka surveyed the roof of the Kyiv maternity hospital he runs as workers installed a scarce and suddenly vital new commodity in Ukraine: solar panels.
