# **Huawei solar panels on rooftop in Lyon France**

## Overview

---

What is Huawei solar doing with kilowattsol SAS?

This June Huawei Solar started its cooperation with Kilowattsol SAS, one of the European market leaders in yield assessment for PV projects. According to Xavier Duval the Lyon based company assessed 42 percent of the bidded PV plants in France. The focus is on pooled ground-mount and rooftop PV projects with a capacity of more than five MW.

Is France a good country for rooftop solar?

France remains one of the top performing countries when it comes to the development of Rooftop solar policy and practices, but deliverables still need to be achieved. France's photovoltaic (PV) policies are developed within the National Low Carbon Strategy and the Energy Programme Decree.

Does Huawei have a presence in Europe?

Huawei is enhancing its solar activities and presence in Europe. Around 120 customers and investors joined the France FusionSolar conference of the inverter manufacturer in Lyon, France. "Size, large investments in R&D and long-standing experience in telecommunications."

Why is solar PV mandatory in France?

Mandatory solar: Solar PV is mandatory for living roofs for commercial and industrial buildings or covered car parks occupying 500 m<sup>2</sup> or more of ground surface. Power to the people: France's current policy framework is supportive of collective self-consumption and energy communities, with flexible regulations supporting prosumers.
