How will Lithuania support energy storage projects?

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU. The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects.

How much is energy storage in Poland?

The EU recently approved €1.2 billion for energy storage Poland under the TCTF, as covered by Energy-Storage.news, and in mid-2023 approved amounts under the TCTF in Hungary and Slovenia. Panelists at this year's Energy Storage Summit Central and Eastern Europe (CEE) in September described Hungary's scheme as one of the most advanced in the world.

Is Hungary's energy storage scheme the most advanced in the world?

Panelists at this year's Energy Storage Summit Central and Eastern Europe (CEE) in September described Hungary's scheme as one of the most advanced in the world. Grant support for energy storage in the EU has also been activated via a separate scheme, the post-Covid-19 Recovery and Resilience Plan, including in Romania, Finland and Greece.
