Kosovo EK solar module project

Overview

Why is the EIB funding a solar plant in Kosovo?

The EIB is providing €33 million for the construction of one of Kosovo's largest solar photovoltaic plants. The new plant will contribute to higher energy security and the phasing out of coal-based power generation.

Why is Kosovo building a photovoltaic plant?

Kosovo's Minister of Finance, Labour and Transfers Hekuran Murati said: "The signing of today's agreement for the construction of the photovoltaic plant is a landmark moment as Kosovo advances its initiatives to secure renewable energy use for its citizens.

How can the EIB support the green transition in Kosovo?

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a €33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a capacity of up to 100 MWac (120MWp).

Kosovo's Minister of Finance, Labour and Transfers Hekuran Murati said: "The signing of today's agreement for the construction of the photovoltaic plant is a landmark moment as Kosovo advances its initiatives to secure renewable energy use for its citizens.

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a capacity of up to 100 MWac (120MWp).

The EIB is providing a EUR 33 million loan for KEK's solar power project of 120 MW in peak capacity on its former coal ash dump.

As of: 02/2024 Kosovo's electricity supply is largely dependent on two coal-fired power plants, which are also outdated. They are responsible for a considerable proportion of ...

Discover how Unisolar's landmark 7.4 MW solar project at the historic Trepça mining complex is accelerating Kosovo's transition to ...

Government-controlled Kosovo Energy Corp. (KEK) said it is preparing to start building its Solar4Kosovo 1 photovoltaic plant near ...

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near ...

The Kosovo Energy Corporation (KEK) has officially opened the pre-qualification phase for the major project "Solar4Kosovo I Photovoltaics", which involves the construction of a photovoltaic ...

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar ...

Government-controlled Kosovo Energy Corp. (KEK) said it is preparing to start building its Solar4Kosovo 1 photovoltaic plant near Prishtina. It informed the local community ...

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the ...

The proposed solar facility is projected to generate approximately 169 GWh per year, a significant contribution to Kosovo's renewable energy objectives. The chosen site for ...

The Kosovo Energy Corporation (KEK) is set to begin construction of a 100 MW solar photovoltaic (PV) plant, a project financed by the European Union through its Economic ...

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The ...

Discover how Unisolar's landmark 7.4 MW solar project at the historic Trepça mining complex is accelerating Kosovo's transition to renewable energy and independence.

The EIB is providing a EUR 33 million loan for KEK's solar power project of 120 MW in peak capacity on its former coal ash dump.

Government-controlled Kosovo Energy Corp. (KEK) said it is preparing to start building its Solar4Kosovo 1 photovoltaic plant near Prishtina. It informed the local community ...
