Latvian companies selling energy storage equipment

Overview

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

How will Latvenergo improve the security of supply?

The innovations and infrastructure of Latvenergo will not only strengthen the security of supply but also the development of the Baltic region." BESS, or Battery Energy Storage System, is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

Where are Latvian products sold?

In addition to the export markets above, Latvian products are also sold in the UAE, South Africa, US, Israel, etc. Our products can be found all over the world under our own labels, different private labels, and as ingredients in diverse foods. 26.01.2022.

Why are battery systems important for Latvenergo?

Battery systems play a crucial role in balancing the production volumes of Latvenergo and improving the flexibility of consumption. Chief Financial Officer of Latvenergo Guntars Baļčūns: "This investment in battery systems is an important step in the development of our energy sector and long-term sustainability.

Top Companies Driving Energy Storage Innovation in Latvia 2024 Latvian energy storage projects are gaining momentum as the country accelerates its transition to renewable energy. This ...

A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and ...

The Latvian Energy Puzzle: Why Storage Containers Matter Now Latvia's renewable energy capacity grew by 18% last quarter, but here's the kicker - nearly 30% of that

potential gets ...

List of Manufacturers, Suppliers and Companies for the Energy - Energy Storage industry
Agricultural Industry serving Latvia

Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a large-scale mtu battery storage system to secure the ...

Latvian state-owned utility Latvenergo AS has decided to invest in a new business area in its portfolio with plans to install 250 ...

Aura Power is a developer of renewables and BESS active across Europe. Image: Aura Power. A double-header of large-scale BESS ...

The TSO of Latvia has selected Rolls-Royce Solutions for two battery storage projects totalling 80MW of power and 160MWh of capacity.

An energy storage battery is equipment comprised of several energy storage batteries are intend for discharging and charging electricity within the grid, in order to ensure ...

The new energy storage system marks a major advancement for Latvia, which is working to stabilize its energy supply while supporting sustainable development. Hoymiles is ...

Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a ...

Detailed info and reviews on 28 top Energy companies and startups in Latvia in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

The largest energy storage battery system will provide energy storage to transfer the generated electricity to users when there is a shortage in the electricity system. The ...

Discover how Latvia's innovative energy storage initiatives are reshaping grid stability and renewable integration. This deep dive explores technical breakthroughs, market trends, and ...

Latvia's transmission system operator AS "Augstsprieguma tīkls" (AST) has received a critical shipment from Italy, delivered by Rolls ...

Niam Infrastructure & Evecon form Latvian solar-storage partnership Niam Infrastructure and Evecon have formed a partnership with the aim of constructing up to 84 MWp of solar power ...

Latvian energy storage projects are gaining momentum as the country accelerates its transition to renewable energy. This article explores key players, emerging technologies, and market ...

Why Latvia Needs Advanced Energy Storage With 42% of its electricity coming from renewables in 2023 (up from 28% in 2018), Latvia faces unique challenges in grid management. The ...

Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of battery energy storage systems (BESS), ...

A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and power generation firm Latvenergo intends to ...

The largest energy storage battery system will provide energy storage to transfer the

generated electricity to users when there is a ...

Latvia's transmission system operator AS "Augstsprieguma tīkls" (AST) has received a critical shipment from Italy, delivered by Rolls-Royce Solutions GmbH. The delivery ...

Latvian state-owned utility Latvenergo AS has decided to invest in a new business area in its portfolio with plans to install 250 MW/500 MWh of battery energy storage capacity ...

Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of ...

A growing demand in the energy market for battery energy storage system (BESS) technologies is developing currently, and the trend is expected to remain stable in the future. ...

Explore the emerging energy storage market in Latvia, a hidden gem in the Baltic region. Following its 2025 energy independence, Latvia is experiencing a surge in renewable energy, ...

RIGA, Nov. 1 (Xinhua) -- Renewable energy company Utilitas Wind on Friday inaugurated the largest battery energy storage system (BESS) in Latvia to date, local media ...
