Lg solar energy storage products

Overview

Does LG have a solar energy storage system?

In September 2022, LG Electronics launched the Home 8 residential energy storage system, an AC-coupled battery with a built-in inverter. LG's home batteries provide all the standard advantages of solar batteries, including backup protection against grid outages, time-of-use load-shifting, and greater energy independence.

What is LG Home 8 energy storage system?

Home is where the 'smart' is. The all-in-one LG Home 8 Energy Storage Systems (ESS) is engineered to store and provide your home up to 14.4 kWh of usable energy from solar panels or AC-coupled power. And with energy efficient solutions, you can rest easy knowing your home is future-proofed with reliable backup power for ultimate peace of mind.

Why should you choose LG Energy Storage Systems?

LG is proud to lead the charge toward a greener future with stylish and dependable electrification solutions. With our all-in-one Energy Storage Systems, we're committed to providing more reliable, renewable energy to power your home when you need it and peace of mind when you don't. Home is where the 'smart' is.

What does LG ESS offer?

Discover more about what our LG ESS has to offer. Get around-the-clock sustainable power you can count on with home energy storage or commercial energy storage solutions engineered by LG Electronics.
