London retrofit 220v inverter

Overview

What is an AC-coupled battery storage retrofit inverter?

As an AC-coupled battery storage retrofit inverter, it can effectively upgrade an existing single-phase or three-phase on-grid PV system into an energy storage system by adding a battery. Max. Continuous Charging / Discharging Current (A).

What is repowering London?

We know that access to warm, safe homes that are affordable to run isn't available to everyone today. That's why Repowering London is expanding its work to include low-carbon heat and energy efficiency technologies. We're providing retrofit solutions that improve our homes and buildings and help decarbonise our urban environment. What is retrofit?

.

Is GoodWe SBP G2 a battery storage retrofit inverter?

GoodWe SBP G2 is suitable for both single-phase & three-phase systems, adapting to various architecture conditions of users. As an AC-coupled battery storage retrofit inverter, it can effectively upgrade an existing single-phase or three-phase on-grid PV system into an energy storage system by adding a battery. Max.

What is retrofit accelerator?

Retrofit Accelerator helps organisations such as London boroughs, housing associations, and universities to implement retrofit projects helping to cut carbon emissions and alleviate fuel poverty.
