# **Madrid Energy Storage solar Project Solution**

**LFP 48V 100Ah**

## Overview

---

Will Madrid become a central base for energy storage systems?

“Our strategy is very clear: to turn Madrid into our central base for energy storage systems. From there, we’ll provide agile and specialized support to clients across Europe and Latin America,” Gattoni explained.

How can Spain transform its energy system into a climate-resilient country?

To ease financing, beneficiaries may request advance payments of up to 100% of the awarded aid, provided certain conditions are met. These efforts are part of a broader strategy to transform Spain’s energy system into one that is more flexible, robust, and climate-resilient.

What is the largest CHP+PV+Bess project in Spain?

As part of this project, MARS is proud to contribute by providing Socrates BESS units, with a total capacity of 5.6MW/11,3MWh. Once completed, this will become the largest CHP+PV+BESS project in Spain, marking a significant milestone in the country’s energy landscape. This project has garnered support from the “PROGRAMA RENOCOGEN” initiative.

What is risen energy doing at Intersolar Europe 2025?

At Intersolar Europe 2025, Risen Energy made clear its intention to consolidate its position as a global provider of integrated energy solutions, placing particular emphasis on its expanding energy storage capabilities for utility-scale and commercial & industrial (C&I) applications.

## Madrid Energy Storage solar Project Solution

---

"Our strategy is very clear: to turn Madrid into our central base for energy storage systems. From there, we'll provide agile and specialized support to clients across Europe and Latin America," Gattoni explained.

To ease financing, beneficiaries may request advance payments of up to 100% of the awarded aid, provided certain conditions are met. These efforts are part of a broader strategy to transform Spain's energy system into one that is more flexible, robust, and climate-resilient.

As part of this project, MARS is proud to contribute by providing Socrates BESS units, with a total capacity of 5.6MW/11,3MWh. Once completed, this will become the largest CHP+PV+BESS project in Spain, marking a significant milestone in the country's energy landscape. This project has garnered support from the "PROGRAMA RENOCOGEN" initiative.
