**Make money from solar panels**

## Overview

---

You can make money from solar power by selling excess electricity back to the grid through net metering, earning solar renewable energy certificates (SRECs), leasing your rooftop to solar companies, and investing in or developing solar farms. How can you make money from solar power?

You can make money from solar power by selling excess electricity back to the grid through net metering, earning solar renewable energy certificates (SRECs), leasing your rooftop to solar companies, and investing in or developing solar farms. These strategies help you generate income while promoting renewable energy use.

How do solar panels make money?

You earn money through a Smart Export Guarantee (SEG) tariff. After registering with an SEG provider, your smart meter records how much excess electricity you send back to the grid. Your supplier then pays you for each kilowatt-hour exported, usually monthly or quarterly, depending on the tariff. How much do solar panels save on energy bills?

.

How can I make money from solar panels on my roof?

The easiest way to make money from solar panels on your roof is through net metering. Utility users that produce solar power can feed part of the excess energy back into the grid thanks to net metering. With this billing strategy, solar clients receive credits against their electricity usage, which lowers their monthly expenses.

How much money can you make installing solar power plants?

Moreover, installing solar power plants of different capacities will support you in earning an income of Rs. 30000 to 1 Lakh. If you want to have a substantial profit with little investment, you must install solar panels. You don't need to have a separate space or a ton of money to install it.
