# **Manufacturer of mobile energy storage batteries in Cordoba Argentina**

## Overview

---

Will Argentina start a lithium battery factory in Latin America?

(Image: Mariano Garcia / Alamy) Argentina will start operations at the first lithium battery cell factory in Latin America before the end of the year. The country aims to boost its position in the region's electric transport and energy storage markets, and go beyond simply producing the lithium that is critical to their growth.

Where is y-TEC launching a lithium battery plant?

The majority-state-owned company Y-TEC is set to open its first industrial-scale lithium battery plant in the city of La Plata, in Buenos Aires province.

Where does lithium come from in Argentina?

A satellite view of lithium extraction at the Cauchari-Olaroz plant, Jujuy province. According to Argentina's mining ministry, 42% of the country's lithium production in 2022 was exported to China, the world leader in electric vehicle manufacturing.

Could a new lithium plant add value to Argentina's lithium industry?

A worker at a lithium plant in the Salinas Grandes salt flat in northern Argentina. The country's lithium production is rising, and a new battery plant will be one of the first facilities to process the metal domestically, with hopes of adding value to its industry. (Image: Mariano Garcia / Alamy)
