

Marseille energy storage power station installation

Overview

What is a geothermal power station in France?

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with power for heating and cooling — over an area which will eventually comprise 500,000m² — while reducing greenhouse gas emissions by 70%.

Who inaugurated the new marine geothermal power station Thassalia?

Marseille, 18 October 2016 - Gérard Mestrallet, chairman of ENGIE's board of directors, inaugurated the new marine geothermal power station Thassalia last evening.

Why do we want a Marseille-Fos cluster?

"We want this cluster to put Marseille-Fos in a strong worldwide competitive position!" By continuing to browse our site, you accept our privacy policy and that cookies are used to adapt the content of investinprovence.com and allow us to improve the interest and ergonomics of our services.
