# **Mexico Energy Storage Power Station Project**

## Overview

---

What is the first government-level photovoltaic + energy storage project in Mexico?

This is the first government-level photovoltaic + energy storage project in Mexico. We collaborated with CFE (Mexican Federal Electricity Commission) to design and supply the BESS (Battery Energy Storage System) for this project.

Will Mexico colocate battery energy storage systems?

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government official told the Senate on Tuesday.

Does Mexico have a 30% energy storage mandate?

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% capacity requirement, alongside plans to add a further 574 MW of batteries by 2028.

Will energy storage systems be integrated into the national electric system?

Earlier in March, Mexico introduced administrative provisions regulating the integration of energy storage systems into the National Electric System. It also revealed that the incorporation of 8,412 MW of energy storage systems is planned for the 2024-2038 fiscal year.

## Mexico Energy Storage Power Station Project

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government official told the Senate on Tuesday.

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% capacity requirement, alongside plans to add a further 574 MW of batteries by 2028.

Earlier in March, Mexico introduced administrative provisions regulating the integration of energy storage systems into the National Electric System. It also revealed that the incorporation of 8,412 MW of energy storage systems is planned for the 2024-2038 fiscal year.

In summary, electrical energy storage in Mexico and other Latin American countries is in a phase of growth and development. The implementation of energy storage ...

Peñasco Solar farm (Phasel) BESS station Project location: Mexico Peñasco Port  
Capacity: 12MW/24MWh This is the first government-level photovoltaic + energy storage ...

CFE's 2025-2030 plan includes 12 new power plants and billions in investments to modernize Mexico's energy infrastructure.

The administrative provisions regulating the integration of EES into the National Electric System are in effect as of Monday. The incorporation of 8,412 MW of energy storage ...

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% ...

About the Project Corazon Energy Storage (Corazon) is ideally located in Albuquerque, New Mexico on approximately 10 acres of undeveloped ...

Mexico's energy sector has unveiled a groundbreaking policy, stirring up the global energy storage market and introducing new variables to its development path. Recently, the ...

"The grid-side energy storage power station is a 'smart regulator' for urban electricity, which can flexibly adjust grid resources," Tesla said on Weibo, according to a ...

During the inauguration ceremony of the power station held on the same day, Mexican President Andres Manuel Lopez Obrador visited the energy storage project and ...

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that sets clearer rules for private energy investments.

Mexico's new 30% battery storage mandate is set to transform the renewable energy sector. Learn how this policy impacts grid stability, private investment, and the future of ...

Mexico's new 30% battery storage mandate is set to transform the renewable energy sector. Learn how this policy impacts grid ...

The project was developed and financed by Shenzhen Energy Group. Image: Shenzhen Energy Group. A project in China, claimed as the ...

A 1GW solar-plus-storage project in Mexico marks a shift in government thinking on energy storage, a local provider told Energy-Storage.news.

Recently, China Power Energy Storage Development Limited (hereinafter referred to as "China Power Energy Storage"), a subsidiary of CPID, synchronized and put into operation the ...

Adelaide, South Australia, 26 November 2025 - Sungrow, the leading global PV inverter and energy storage system provider, marked the official commencement of construction of client ...

A 1GW solar-plus-storage project in Mexico marks a shift in government thinking on energy storage, a local provider told Energy ...

Peñasco Solar farm (Phase1) BESS station Project location:Mexico Peñasco Port Capacity:12MW/24MWh This is the first government-level ...

Energy Toolbase provides a cohesive suite of project modeling, storage control, and asset monitoring products that enable solar and storage developers to deploy projects more ...

A proposed 1.5-gigawatt pumped storage hydropower project in New Mexico aims to leverage 70 hours of long duration energy storage capacity.

Mexico's energy sector has unveiled a groundbreaking policy, stirring up the global energy storage market and introducing new ...

During the inauguration ceremony of the power station held on the same day, Mexican President Andres Manuel Lopez Obrador ...

Pemcorp Energy power station (Central eléctrica Pemcorp Energy) is an operating power station of at least 130-megawatts (MW) in Pesquería, Nuevo León, Mexico.

The administrative provisions regulating the integration of EES into the National Electric System are in effect as of Monday. The ...

Andrés Manuel López Obrador, President of Mexico, attended the completion ceremony of the power station and visited the energy storage project. ...

In summary, electrical energy storage in Mexico and other Latin American countries is in a phase of growth and development. The ...

Commissioned by China Energy International Group Co., MEXTYPSA is carrying out the feasibility study, preliminary design and ...
