Mobile Outdoor Power Lighting

Overview

What is a mobile light tower?

Mobile light towers, also known as portable light towers, are used to provide temporary lighting for outdoor activities, construction sites, emergency response operations, and other temporary lighting needs. They are designed to be easily transportable and can be powered by a variety of sources, such as generators, batteries, or solar power.

What is a SWT mobile light tower?

SWT Mobile Light Tower As the maker of the world's first LED light tower, SWT leads the industry in innovative light tower solutions. Our vertical mast and compact light towers have revolutionized industrial mobile lighting. Easy to setup, operate and maintain, our light towers provide maximum power in a minimal footprint.

What is a metal halide electric mobile light tower?

A Metal Halide electric mobile light tower provide maximum power in a compact footprint, running longer. This heavy-duty metal halide electric light tower is powered by a Kubota diesel engine that provides powerful illumination and a stable wide wheelbase. Durable, 359° rotation, powerful illuminating LED light tower with pipe structure.

How do I choose a mobile light tower?

When selecting a mobile light tower, consider these factors to match the equipment to your needs: Lighting Requirements: Evaluate the area size, light intensity, and duration needed. For very large or high-ceiling areas, choose a tower with higher lumen output and taller mast.
