Mozambique Sida Energy Storage Project

Overview

Why does Sida support Mozambique?

Sida's support in Mozambique goes towards creating sustainable peace, climate and environment, democracy, increased respect for human rights, a rule of law that treats all people equally before the law, increased gender equality and economic development that benefits all people.

What does Sida do for the environment?

Sida contributes to the conservation and strengthening of biodiversity in the country's national parks and other protected areas through the Mozambican foundation Biofund. They work on land and forest management and utilisation. The UN Food and Agriculture Organisation (FAO) is improving cooperation between fisheries and the environment.

What is Sweden's development cooperation with Mozambique 2022 - 2026?

Strategy for Sweden's development cooperation with Mozambique 2022 - 2026 is currently only available in Swedish. Sida's humanitarian support in Mozambique is based on an annual crisis analysis and is channelled to the humanitarian organisations in the country best able to reach the people most in need.

How many people in Mozambique have electricity?

Today, more than 30 per cent of the population has access to electricity. Sweden contributes to Mozambique's Energia Para Todos (Energy for All) programme, partly through the World Bank's fund of the same name. By the end of 2023, more than 400,000 households had access to electricity through the fund.
