# **Multifunctional energy storage power supply price in Manchester UK**

**CE UN38.3** 

## Overview

---

Costs in Manchester vary based on battery capacity (kWh), brand, inverter type, and installation complexity. Prices typically start from 4,000-5,000 upwards for a quality installed system. Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

Who is multi source power?

Here at Multi Source Power our team of experts design, build, and deliver Battery Energy Storage Systems for both on- and off-grid applications. Our high-performance modular BESS fully integrates into any power plant to accelerate return on investment on projects across the globe.

Could a battery storage system save the UK energy system?

The UK government estimates technologies like battery storage systems – supporting the integration of more low-carbon power, heat and transport technologies – could save the UK energy system up to £40 billion (\$48 billion) by 2050, ultimately reducing people's energy bills.

Where is multi source power located?

Registered Office: Oak House, Overbrook Lane, Knowsley, Prescot, L34 9FB.  
Operating Address: Elmsfield Park, Holme, Carnforth, Cumbria, LA6 1RJ, United Kingdom. Here at Multi Source Power our team of experts design, build, and deliver Battery Energy Storage Systems for both on and off-grid applications.
