.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

Does adding more batteries increase the power rating of an ups?

A UPS with load segments (output receptacles than can be managed separately) allows you to shut down non-critical loads during a power outage and extend battery runtimes for critical equipment without adding additional battery modules. Adding more batteries doesn't increase the power rating of the UPS.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.
