New Energy Site Latest

Overview

What is the latest energy news?

From fusion to hydrogen to solar to wind, we cover the latest energy news. NASA's AVIRIS-5 takes flight to detect lithium-bearing minerals from the sky, aiding the USGS' massive Earth MRI campaign. The Melbourne Renewable Energy Hub can power up to 200,000 homes during evening peak demand.

What is Renewables now?

Renewables Now is a leading business news source for renewable energy professionals globally. Trust us for comprehensive coverage of major deals, projects and industry trends. We've done this since 2009. More about us Premium access Stay on top of sector news with with Renewables Now.

Which company has won the first battery energy storage project in India?

ENGIE has won its first battery energy storage system project in India, with a capacity of 280 MW/560 MWh. The Department of Climate, Energy, and the Environment has provisionally awarded a joint venture by ESB and Ørsted the rights to develop the Tonn Nua site off the coast of County Waterford, Ireland.

Is China collaborating on green energy projects?

Currently, China is collaborating on green energy projects with over 100 countries and regions. According to the International Renewable Energy Agency, the average global cost per megawatt-hour for wind and solar power has plummeted by over 60 percent and 80 percent, respectively, over the last decade.
