New solar container battery farm in the Netherlands

Overview

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m² site and will be used for grid stabilization by storing excess energy from renewable sources.

Will Vattenfall operate a large-scale Battery Park?

Vattenfall and the international energy storage company Return have entered into an agreement under which Vattenfall will operate and optimise a large-scale battery park with a capacity of 50 megawatts for eight years. The battery park will be located in Waddinxveen in southern Netherlands and is planned to be operational in the first half of 2026.

Will Vattenfall develop a large-scale Battery Park in Waddinxveen?

Vattenfall will realise a large-scale battery park in Waddinxveen in southern Netherlands. The energy company entered into an agreement with the international energy storage company Return for this purpose. Return will provide Vattenfall with a large-scale battery with an output of 50 megawatts and a storage capacity of 100 megawatt hours.

Where is Vattenfall Battery Park located?

The battery park will be located in Waddinxveen in southern Netherlands and is planned to be operational in the first half of 2026. Return will provide Vattenfall with a large-scale battery with an output of 50 megawatts and a storage capacity of 100 megawatt hours in an eight-year contract from the planned commissioning in the first half of 2026.
