

Nordic solar Tiles

Higher Anti-Rust Performance
Lower Internal Impedance

Overview

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What is A Midsummer wave solar roof?

With Midsummer's solar roof, you no longer have to compromise between solar energy and aesthetics. Midsummer WAVE is a wave-shaped solar panel that follows the shape of your roof tiles.

Is a solar roof a good alternative to a conventional roof?

Solar roof is a great alternative to conventional roof and as source of energy. In the long run, the price of a solar roof is even cheaper than a regular roof because my roof generates electricity over time.

Can I get A Midsummer wave solar panel in black?

The Midsummer WAVE solar panel is only available in black. Your roof tiles can be in any color, but black is most suitable as the roof tiles will be perceived as black. We are happy to receive a drawing of your roof as a PDF, so that we can produce as accurate a quote as possible.
