200Ah/300Ah  
LiFePO4 battery**

## Overview

---

Which telecommunication company operates in Belize?

Belize is well served by cellular service that covers most of the country and certain marine areas close to major coastal population centers. The major telecommunication company is the government owned Belize Telemedia Limited. The second company SMART SPEEDNET is privately held.

How many TV stations are there in Belize?

Belize currently has three National TV Stations and several Local TV Channels. If you miss the broadcast, many channels offer Streaming Video, and some local Channels are only available on local Cable or the Internet.

Why does Belize have a low teledensity & mobile penetration?

Belize's fixed-line teledensity and mobile penetration remain lower than average for the region, a legacy of insufficient market competition and underinvestment in telecoms services, exacerbated by lax managerial standards within the incumbent telco Digi.

What is Digi doing in Belize?

Digi invests BZ\$93 million to provide broadband to 80% of premises across Belize, deploys over 2,000km of fibre and enrolls over 34,000 fibre customers, Mobile sector accounting for over 90% of all phone subscriptions;
