Old circuit breaker in China in New-Zealand

Overview

Who makes low voltage circuit breakers in China?

One of the most renowned national producers and exporters of low voltage circuit breakers in China, Shanghai Dada Electric Co., Ltd, was established in 1986. This organization has taken the lead when it comes to using the ISO9001 Quality Management System.

Does Wenzhou manufacture circuit breakers?

Wenzhou can import and export on its own, increasing its market in Southeast Asia, the Middle East, Europe, and other regions. Some of their products include miniature circuit breakers, residual current circuit breakers, molded case circuit breakers, and others. Circuit Breaker is available from this company.

Where can I find old electrical breakers?

Platforms dedicated to industrial components often feature listings for rare and old electrical breakers. These websites and online auctions provide additional avenues for procurement. Reach out to original manufacturers. They may have surplus stock or recommend compatible alternatives for obsolete breakers.

What is an electrical breaker?

Electrical breakers, or electrical circuit breakers, are devices designed to protect electrical systems by interrupting current flow when a fault is detected. These devices are critical in residential, commercial, and industrial settings, offering both safety and operational integrity. Over time, older breakers often become obsolete.
