Outdoor power station factory in Saudi-Arabia

Overview

Why is Mitsubishi Power launching a national program in Saudi Arabia?

With Saudi Arabia as a cornerstone of the company's regional activities, Mitsubishi Power launched a National Program in 2019, to prioritize the development of local talent and expand industrial facilities and capabilities in Dammam to serve Saudi Arabia and the wider region, in line with iktva and Saudi Vision 2030.

When did Mitsubishi start supplying boilers to Saudi Arabia?

In 1965, Mitsubishi Power began operations in the MENA region with its first supply of boilers to Saudi Arabia at Aramco in Abqaiq and has since been active in utility and industrial power projects with major power players in the Kingdom.

Where is Mitsubishi power assembly facility located?

The Assembly facility is located in Dammam 2nd Industrial City, near Mitsubishi Power's Gas Turbine Rotor & Compressor Repair Centre. Mitsubishi Power's assembly program has targeted Mitsubishi Power's M501 Gas Turbines which are the most efficient and highest output GT technology in its class, a best fit for future projects.

Does Mitsubishi Power have a rotor service centre in Dammam?

Mitsubishi Power signed a Corporate Procurement Agreement with Saudi Aramco for Gas Turbine maintenance in 2014, and then in line with the iktva initiative, Mitsubishi Power established a service and repair centre for Hot Gas Path Parts components and a rotor maintenance centre in Dammam, which was audited and accredited by Saudi Aramco.
