What is a 20ft container?

A 20ft container is a critical enclosure for the energy storage system. It has a metal shell and grounding system to protect the system and users' safety. The battery cluster is composed of LiFePO4 batteries arranged in a 1P20S configuration and a BMU. The 1MWh system includes 5 clusters, connected to a 500kVA PCS for output at 340-440VAC.

What is the capacity of pknergy 20ft container 1MWh battery?

PKENERGY's 20ft container 1MWh battery has a rated capacity of 1000kWh. It uses LFP (Lithium Iron Phosphate) batteries and is designed to have a lifespan of over 10 years. The system can operate completely off-grid.

What is a battery container?

A battery container is a large, modular enclosure used to house and protect energy storage systems, such as lithium batteries, from environmental factors.
