## Overview

---

Where is the largest solar power plant in France?

Paris, J- TotalEnergies inaugurated the region's largest solar power plant, as well as a battery energy storage system, on the Grandpuits site, with Valérie Pécresse, President of Île-de-France region in attendance.

What solar systems work with Megatron battery energy storage systems?

Inquire Now! ATLAS Commercial and HERCULES Carport PV systems perfectly pair with MEGATRON battery energy storage systems. MEGATRON 50kW to 150kW systems can be paired with 50kW to 100kW's of PV. Each BESS has either 50kW or 100kW solar inverter integrated into the containerized system.

How does totalenergies produce solar energy?

This production is made possible by the installation of 46,000 solar panels on steerable structures called trackers, which are designed to maximize solar energy capture throughout the entire day. Along with the solar plant, TotalEnergies commissioned a 43-megawatt-hours (MWh) battery energy storage system.

Can a 50kw Solar System be paired with a 100kW solar inverter?

MEGATRON 50kW to 150kW systems can be paired with 50kW to 100kW's of PV. Each BESS has either 50kW or 100kW solar inverter integrated into the containerized system. A solar combiner box is designed in to bring all the PV strings together at the correct DC voltage window.
