

NKOSITHANDILEB SOLAR

Philippines Cebu Lead Battery Energy Storage Company

Overview

What is MGen's new energy storage facility in Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. / PNA MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

Where is the first battery-based energy storage facility in the Philippines?

The plant, which will be the first battery-based energy storage facility in the Philippines, will be located next to the Masinloc power plant in Zambales. The energy storage array will enhance grid reliability by providing fast response ancillary services like frequency regulation.

When will MERALCO PowerGen's battery energy storage system be completed?

COMPLETION of the first phase of Meralco PowerGen Corp.'s (MGEN) Battery Energy Storage System (BESS) in Toledo, Cebu, is targeted for 2026, with full completion eyed the following year. The first phase has a 25 megawatt (MW) capacity, while full capacity is 49 MW.

Why should we invest in energy storage in the Philippines?

“This energy storage project is not just another venture—it is a testament to our shared commitment to advancing clean energy in the Philippines. By integrating advanced storage technology, we are not only enhancing grid stability but also ensuring that renewable energy can be supplied reliably, day and night.
