Philippines Energy Storage New Energy Factory

Overview

Who inaugurated Philippines' first lithium iron phosphate battery factory?

Philippines President Ferdinand 'Bong Bong' Marcos Jr attended inauguration of country's first lithium iron phosphate (LFP) battery factory.

Where is a new factory located in the Philippines?

The manufacturing complex was inaugurated on Monday during a ceremony attended by Philippines President Ferdinand Marcos. The new factory is located at the Filinvest Innovation Park in New Clark City, Tarlac province.

How many jobs will a battery factory generate in the Philippines?

The Philippine government expects the factory to generate about 2,500 jobs across multiple sectors including engineering, finance, and administration by 2030. The initial production will produce the equivalent of 6,000 electric vehicle batteries or 60,000 home battery systems.

What is a 7 billion peso battery manufacturing plant?

A seven billion peso battery manufacturing plant was recently inaugurated by President Bongbong Marcos, Jr. in New Clark City, Capas, Tarlac. The StB Giga Factory, the president said, is the country's first manufacturing plant of advanced lithium iron phosphate batteries, and considers it "a major investment in a very critical industry."
