Portable Battery Inverter

Overview

What is an inverter battery?

The inverter battery and inverter cables are usually connected to the power connection of the home. An inverter battery for home can be any rechargeable or secondary or storage battery (electrochemical power source) like a lead-acid battery, nickel-cadmium battery or Li-ion battery.

Can an inverter charge a battery?

Inverter/chargers also offer the ability to receive shore-based AC current and use it to charge your batteries. Remember that no inverter will create power. You'll have to be sure that the drain on your inverter is not exceeding the capacity of your batteries! An inverter converts 12 volt DC battery power to 120 volt AC power.

What kind of batteries do home inverters use?

Home inverters generally use maintenance free batteries which are sealed lead acid batteries which do not require regular maintenance or additional ventilation. Tubular Batteries are becoming more popular for Home UPS systems and have several advantages compared to flat plate batteries.

Where can you buy Inverter batteries online?

You can check out the batteries on Amazon, Snapdeal and Flipkart. Inverter batteries are hazmat products, kind of unsafe products. Precautions are necessary to keep in the warehouse and while transporting.
