Portable mobile power bank with five holes

Overview

What is a power bank & how do I use it?

A power bank is a portable charger that you can use to charge your tech on the go. Before you leave home, charge your power bank charger to full capacity. Then, take your power bank along with your cell phone cables and chargers. Plug your phone cable into your power bank on one end and into your phone on the other. Voila: charge on the go!

Can you use a power bank on a phone?

Our power banks are compatible with so many different types of electronics. Charge your phone, headphones, phone accessories, ereader, and any other tech that needs an extra boost. They're a great tech gadget for concerts, traveling, and so much more. How do I charge my portable charger?

It's easy to charge your portable charger.

How do I choose the right power bank for my Smartphone?

Selecting the right power bank for your smartphone depends on a few key factors. Here's a straightforward guide to help you choose: 1. Capacity (mAh) 10,000mAh: Good for 1-2 full charges; compact and portable. 20,000mAh: Ideal for heavy users or travel; 3-4 charges. 30,000mAh+: Best for tablets, laptops, or multiple device charging.

How much power does a power bank give a phone?

Our testing shows that a power bank can offer your phone between 70-80% of the power it contains, or more depending on the battery. It loses the rest due to the inefficiency of the power transfer. That means a 5,000 mAh battery can fully charge a phone with a 3,500 mAh battery, like an iPhone 16.
