

Portugal Porto user-side energy storage power station

Overview

Eco Wave Power, creator of the EWP energy device, has announced that as of March 2024, it received permission to build its first mW scale energy project in Porto, Portugal that will present an alternative and forward-thinking opportunity for expanding renewable energy. Is Portugal leading the way in wave energy commercialization?

“Portugal is not only a global leader in renewable energy it is now leading the way in wave energy commercialization,” said Inna Braverman, Founder and CEO of Eco Wave Power. “By securing grid connection for our first 1MW station, we are turning vision into reality.

What does Eco Wave Energy say about the Portugal project?

Eco Wave Energy said about the so-titled Portugal Project: “We believe this will be the first commercial-scale wave energy project in the world and therefore, a significant step towards wave energy commercialization”. Despite the scale, this isn’t the company’s first or largest project.

When will Eco Wave Power be able to connect to e-Redes?

Additionally, Eco Wave Power has informed E-REDES of a tentative grid-connection date scheduled for 2026, pending final permitting, construction, and regulatory procedures. Eco Wave Power’s project in Portugal marks its first megawatt-scale deployment in the region.

Will a 20MW wave power station be built?

The 20mW wave power station will be constructed and commissioned in several stages. A trial run of a 1mW station will prelude the creation of the remaining 19mW capacity of the station if seen as a success.
