# Power outage in Croatia solar container outdoor power

## Overview

---

Where is the electricity out of Croatia?

According to reports the electricity is out from Split to Cavtat, as well parts of neighbouring Bosnia and Herzegovina. Zadar, Šibenik, Split, Omiš, the whole of the Dubrovnik region and Konavle is out of power. The electricity company, HEP, have so far not commented about the situation and their website is down.

What happened to the power grid in Croatia?

Hina has unofficial information from the Croatian Transmission System Operator that a meltdown occurred in the power grid in three countries, firstly in Montenegro, then the power went out in Bosnia and Herzegovina followed by parts of Croatia, including all of Dalmatia, to Rijeka and as far as the Brinje substation.

Why is solar power important in Croatia?

The growth of solar power in Croatia is also creating new economic opportunities. The renewable energy sector can generate jobs in manufacturing, installation, and maintenance, while the increased use of solar power can lead to significant cost savings for consumers and businesses through lower electricity bills.

Why are solar projects growing in Croatia?

The government's commitment to a favorable investment climate has been a critical driver of this growth. Incentives such as feed-in tariffs, tax breaks, and subsidies for solar projects are designed to attract more investors and developers to the Croatian solar market.
