Price List for 40-foot Mobile Energy Storage Containers in South Sudan

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

How many MWh can a container hold?

Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy capacity range of 1.0 – 2.9 MWh per container to meet all levels of energy storage demands. Optimized price performance for every usage scenario: customized design to offer both competitive up-front cost and lowest cost-of-ownership.

How much does a 40 ft cube container cost?

The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container, with its fresh-off-the-factory-floor feel, naturally costs more than its seasoned counterparts. Used or cargo-worthy containers, which have braved the elements and collected some dents along the way, have lower price tags.

How much does a 40 ft container cost?

Now, if you need a brand new 40ft container, you may part with \$1,500 to \$4,000. The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container, with its fresh-off-the-factory-floor feel, naturally costs more than its seasoned counterparts.
