

# **Price of imported solar modules in Bangkok**

## Overview

---

How much does a solar module cost in India?

The cost of a solar module in India varies from company to company, with prices ranging from ₹16,000/unit for a 5 watt to 230 watt Solar P.V. Module. Please note that this is the latest price according to our research.

Where are solar PV modules manufactured in India?

Waaree Energies has India's greatest Solar PV Module manufacturing capacity of 2 GW at its operations in Surat and Umbergaon, Gujarat. It is India's premier EPC, project development, rooftop solutions, solar water pumps, and independent power generation company.

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

Do 'anti-circumvention' tariffs on solar panels have to be paid?

They do not have to be paid on cells and modules that are already subject to separate "anti-circumvention" duties on equipment that Commerce found in an earlier Auxin investigation is being manufactured in southeast Asia using Chinese parts to avoid high tariffs on solar equipment manufactured wholly in China.
