Price of solar panels on roof

Overview

How much does a solar roof cost?

"Tesla's Solar Roof is possibly the sleekest solar solution out there," CNET's AJ Dellinger wrote. The price of more common solar panels can vary due to a variety of factors. CNET estimates it at between \$15,000 and \$20,000 for a 5-kilowatt system. That's on the low end of MarketWatch's 6-to-8-kilowatt estimate for what the average home needs.

How much do solar panels cost?

In addition, the specifications of the panels (such as power) and the cost of installation also play a role. On average, you pay around €500 to €600 per solar panel, including installation. The cost of solar panels depends on the number of panels and the power per panel. In general, the more panels you buy, the cheaper the price per panel becomes.

How much do Solar shingles cost?

While solar panels typically cost between \$18,100 and \$35,064, solar shingles cost \$23,000 to \$52,000 for materials and installation. That price range is higher for certain manufacturers; for example, Tesla solar shingles cost \$40,000 to \$80,000 for materials and installation.
