

**NKOSITHANDILEB SOLAR**

# **Recommended solar container battery manufacturers in Zurich Switzerland**

## Overview

---

Who makes Oerlikon stationary batteries?

Oerlikon Stationary Batteries Ltd. manufactures a full range of stationary lead-acid batteries, notably the valve-regulated Compact-Power™ family which has become a key component in telecom power equipment and a whole variety of other applications.

Who makes Swiss clean battery?

When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners. Jonas & Redmann (Berlin), Munters (Hamburg), Dalex (Knowledge) and Metha Bau (Amriswil), for example, are on board.

Why should you choose Swiss clean battery?

The high standardization of factory construction promotes economies of scale and rapid implementation, so that the total capacity of 7.6 gigawatt hours will be reached in just a few years. When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners.

What is the design of a solar storage system?

The cell design is prismatic and is surrounded by a stainless steel housing. Eight cells are installed per module, with an output of approximately 1.3 kWh per module. The design of the storage systems is modular in two ways: The outer shell follows a standard version, which is variable in terms of module configuration.
