Riyadh Communications 5g base station distribution points

Overview

Why is 5G important in Saudi Arabia?

The Kingdom of Saudi Arabia (KSA) is undergoing a radical, nationwide digital transformation. 5G investment and the creation of a solid infrastructure to boost coverage are key to realizing the vision of the future. The growth of 5G mobile services plays a crucial part in the KSA's overall plan to modernize and digitize its economy.

What drives 5G coverage build-out in the KSA?

One of the driving forces behind the 5G coverage build-out is the demand rate of mobile subscribers in the KSA to this new technology generation, which is much faster than the industry average. A precision-based 5G deployment strategy has also resulted in improved network downlink and uplink speeds.

How much does 5G mobile data cost?

The 6 available postpaid 5G mobile data packages range from USD 21 for 6GB (+6GB social media) up to USD 138 for the cheapest of the 2 unlimited data packages. As a value-added service, the two unlimited packages include a subscription to a video streaming service.

Does STC offer a 5G mobile data package?

STC currently offers a range of pre- and postpaid 5G mobile data packages, 5G FWA and 5G MiFi-packages. The 6 available postpaid 5G mobile data packages range from USD 21 for 6GB (+6GB social media) up to USD 138 for the cheapest of the 2 unlimited data packages.
