Riyadh Liquid Cooling Energy Storage Project

Overview

How much is Saudi Arabia's energy storage system project worth?

The engineering, procurement and construction (EPC) contracts for the three energy storage system projects recently awarded in Saudi Arabia are estimated to be worth over \$800m.

Is Saudi Arabia a leader in battery energy storage?

Riyadh, Febru, SPA -- The Kingdom of Saudi Arabia has achieved a leading position among the top ten global markets in the field of battery energy storage, coinciding with the launch of the Bisha Project, which has a capacity of 2000 MWh and is one of the largest energy storage projects in the Middle East and Africa.

Is Saudi Arabia pursuing EPC and IPP contracts?

Saudi Arabia is pursuing both the EPC and independent power producer (IPP) contracting models to procure energy storage capacity for grid balancing and support, a source close to the project tells MEED.

How many GWh of electricity will be installed in Saudi Arabia?

According to Sungrow, each project will have a capacity of 2.6GWh, totalling 7.8GWh. The three storage projects are located in Najran, Madaya and Khamis Mushait in Saudi Arabia. Sungrow added that deliveries are expected to commence this year, and the grid connection is anticipated by 2025.
