# **Riyadh Power Station Energy Storage Group**

## Overview

---

How much is Saudi Arabia's energy storage system project worth?

The engineering, procurement and construction (EPC) contracts for the three energy storage system projects recently awarded in Saudi Arabia are estimated to be worth over \$800m.

Is a 2gwh battery energy storage system being built in Saudi Arabia?

Battery storage containers at the Bisha project. Image: PowerChina. A 2GWh battery energy storage system (BESS) project has gone into operation in Saudi Arabia, according to the engineering, procurement and construction (EPC) firm which delivered it.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.

Is South Korea launching a battery energy storage system in Saudi Arabia?

South Korea's Ministry of Trade, Industry and Energy will host a competitive solicitation for battery storage capacity in two locations. A 2GWh battery energy storage system (BESS) project has gone into operation in Saudi Arabia, according to the EPC firm which delivered it.
