**Romanian new energy storage
power supply manufacturer**

Overview

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floreşti, Cluj county, which is expected to be operational by the end of 2025.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Will Romania supply energy security?

Andreea Campeanu for The New York Times “We will supply energy security for the neighborhood,” Virgil-Daniel Popescu, Romania’s energy minister, said in an interview after lawmakers passed legislation designed to encourage investment in gas production.

How much storage capacity will Romania have in 2025?

This single project will double Romania’s current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania’s energy minister Sebastian Burduja in April, 2025.

Romanian new energy storage power supply manufacturer

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Andreea Campeanu for The New York Times "We will supply energy security for the neighborhood," Virgil-Daniel Popescu, Romania's energy minister, said in an interview after lawmakers passed legislation designed to encourage investment in gas production.
