Rome s largest energy storage project

Overview

What is Italy's largest second-life battery energy storage system?

From ESS News Italy's largest second-life battery energy storage system was officially launched at Rome-Fiumicino airport yesterday. State-owned gas and electric company Enel's 2.5 MW/10 MWh Pioneer project comprises 762 battery packs and modules.

What is Pioneer Energy Storage?

Pioneer is the largest energy storage facility in Italy powered by second-life batteries, built to support the energy needs of Leonardo da Vinci Airport.

Can 2nd-life batteries power the airport in Rome Fiumicino?

As part of the PIONEER project, a commercial use case for 2nd-life batteries in combination with a 30 MWp PV system to power the »Leonardo da Vinci« international airport in Rome Fiumicino will be demonstrated.

Will Rome-Fiumicino have a self-consumption solar project?

Airport management company Aeroporti di Roma (ADR) collaborated on the project, which also drew on the expertise of Germany's Fraunhofer research institute. Rome-Fiumicino already boasts the largest self-consumption solar project at a European airport and Pioneer will be integrated with that "Solar Farm" facility.
