

NKOSITHANDILEB SOLAR

Russian energy storage power supply manufacturer

Overview

Which power supply systems are used in Russia?

The power supply systems are fully agreed with the operational conditions, accepted on the territory of the Russian Federation. Only the modern high tech units are used for the power supply system production, supplied by Eaton. UPS.

What are CATL battery-powered energy storage systems?

CATL battery-powered energy storage systems provide energy storage and flexibility in power generation. Instant utilization and energy output due to battery electrochemical technology and the technology of electricity production using gas-piston units can be combined into a single most efficient system.

Who makes makelsan batteries?

Official (exclusive) representative of leading European UPS manufacture Makelsan within Russian Federation Yellow Battery company provides development and suppliers of batteries and racks under its own brand YELLOW. Up-to-date provider of wide range high technology uninterruptible power supply systems and other integrated power solutions.

Who is Electrosystems technical holding?

«Electrosystems» Technical Holding was founded in 1994. Now the company is one of the leaders of the uninterruptible, independent and standby power supply systems, providing project development, equipment procurement and technical support all over the Russian Federation and CIS countries.
