# Samoa Off-Grid Solar Container 5MWh

## Overview

---

What is a 5MWh energy storage system containerized?

The 5MWh energy storage system containerized is a intelligent monitoring and high protection level, and is suitable for a variety of complex scenarios to meet the energy storage needs of the industrial and commercial sectors, the electric power grid, and renewable energy. The 5MWh energy storage system container consists of 12 energy storage units.

How does Samoa's energy system work?

ed integration of innovative distributed energy solutions across its service territory. Currently, Samoa's energy portion of the tariff sees its highest cost kWhs coming from energy supplied through its diesel resources. The Samoan Government has an established goal of 70% renewable energy generation.

Which land is available for solar energy in Samoa?

r power, spaces in front near and the rear end of the thermal station is available for RE. Total land area from Samoa Land Corporation is 15.5 acres land was designated for Solar Energy. Lease Property is legally leased to EPC from Samoa La.

How many energy storage units are in a 5MWh energy storage system?

The 5MWh energy storage system container consists of 12 energy storage units. A single energy storage unit is made up of 1 lithium battery cluster. Due to their high capacity and small size, 3.2V/314Ah lithium batteries make excellent energy storage containers and designs. Each battery cluster is comprised of 4 battery boxes and 1 high-voltage box.
