Saudi Arabia s Mobile Procurement of Energy Storage Containers

51.2V 150AH, 7.68KWH

Overview

What is Saudi Arabia's battery storage program?

The projects mark the first phase of Saudi Arabia's battery storage program, designed to support its goal of 50% renewable energy by 2030. Each 500 MW facility will operate for four hours, providing 2,000 MWh of total power capacity, said the Saudi Power Procurement Company (SPPC).

How much is Saudi Arabia's energy storage system project worth?

The engineering, procurement and construction (EPC) contracts for the three energy storage system projects recently awarded in Saudi Arabia are estimated to be worth over \$800m.

Does Saudi Arabia have a battery energy storage system?

Saudi Arabia has launched the qualification process for the first group of battery energy storage system (BESS) projects with a total capacity of 2,000 MW/ 8,000 MWh as part of its efforts to expand renewable energy in its power mix. Renewables Now is your complete guide to the emerging economies in Southeast Europe.

Is Saudi Arabia preparing for a 2gw/8gwh battery storage tender?

Saudi Arabia's government entity tasked with procuring electricity generation projects has commenced the qualification process for a 2GW/8GWh battery storage tender. Saudi Power Procurement Company (SPPC), licensed as the sole buyer of electrical energy and capacity from sources within the Kingdom, made the announcement on Monday (4 November).
