

## NKOSITHANDILEB SOLAR

# Senegal power signal tower base station

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

## Overview

---

Source of financing: Originally: US\$184.93 million in debt from African Development Bank (the lead arranger and senior lender), Banque Ouest Africaine de Developpement (BOAD), CBAO Sen.

Where is Senegal's Sendou power station?

Dakar, Senegal, 30 July, 2022 – Senegal's Sendou Power Station has achieved a significant milestone in its ongoing rehabilitation and return to service after it recently produced a 100-megawatt load test during a sustained run at the coal-fired single unit power station that is located in Sendou, 35 kilometers south-east of Dakar.

When did Senegal get a power station?

The international tender for the Sendou power station was launched on 18 November 2005. The agreement between the Minister of Energy of Senegal and the Director General of Senelec (Société nationale d'électricité du Sénégal) on one side and Nykomb Synergetics on other side was signed on 24 January 2008 in Dakar.

What is Senegal's 125 MW coal-fired power station?

Senegal's Sendou coal-fired power station, with a capacity of 125 MW, has surpassed heavy fuel oil generators as the country's most cost-effective source of baseload power. The project, which has been ongoing since 2007, is a regional success. It intends to enhance Senegal's power dependability and cost through a "Build, Own, and Operate" model.

Where is Tobene power located in Senegal?

Tobene – 115 MW Tobene Power is a large independent power generator in Senegal, with a 115 MW capacity, located 90 Km northeast of Dakar near Taiba Ndiaye. It contributes significantly to the country's power generation, accounting for around 10% of installed capacity and supplying over 2 million people.
