Serbia has solar air conditioning

Overview

How many jobs will a solar project create in Serbia?

Djedovic Handanovic said that the project would create between 300 and 500 jobs. According to the Association of Renewable Energy Sources of Serbia, the country has installed around 60 MW of solar. However, that figure is not exact, as there is no official registry for solar installed for self-consumption at this stage.

What will be included in Serbia's new energy deal?

The agreement envisages the construction of a 1.5 GW wind project, a 500 MW solar plant, and a hydrogen production plant with an annual capacity of around 30,000 metric tons by 2028. The projects will be located near the town of Bor, eastern Serbia, and used to power nearby copper mine and smelter owned by Zijin.

What is Serbia doing with China Fengling renewables & Zijin copper?

The Serbian Ministry of Mining and Energy has signed a memorandum of understanding (MoU) with Chinese companies Shanghai Fengling Renewables and Serbia Zijin Copper. It envisages the construction of 1.5 GW wind and 500 MW of solar projects alongside a green hydrogen production facility with 30,000 tons of annual output. DeLasol solar plant
