# **Service Quality of Fast Charging Containers for the Catering Industry**

## Overview

---

Why are mobile drink catering services becoming more popular?

With common options like cold brew coffee, match lattes, fresh-pressed juices and plant-based protein shakes increasing, the popularity of artisanal and gourmet drink offerings has motivated key visibility of mobile drink catering services that increasingly cater to consumers in search of distinct experience-based drinking options.

How can the catering industry survive in a competitive market?

Based on the results of data analysis, some suggestions were provided to the catering industry to encourage them to provide even better services instead of marketing promotion in order to survive in a competitive market. Development of the catering industry promotes the development of the local economy.

Are mobile food services a good substitute for traditional restaurant space?

Mobile food services from upscale food trucks to temporary pop-up stands are easy to use, less expensive to deploy, and provide menu diversity, and therefore, represent a good substitute for traditional restaurant space. It is underpinned by urbanization, shifting diets, and growing street food cultures in broad parts of the world.

What is the essence of catering services?

The essence of catering services is determined by the set of activities, the basis of which is to produce with cultural, entertainment or recreational service package (Milewska, Prączko, Stasiak, 2010, p. 350).
