Singapore Flow Battery

Overview

How do vflowtech batteries work on Jurong Island?

We have a 1 megawatt-hour (MWh) energy storage system at Pulau Ubin, where our batteries provide round the clock energy to residents on the island. VFlowTech's energy storage system at Pulau Ubin. We are also working on another project to use vanadium flow batteries in industrial tanks on Jurong Island.

Where can vflowtech develop a vanadium flow battery system?

Besides developing vanadium flow battery systems, VFlowTech also has a research and development centre here in Singapore looking at continuously improving the energy storage system technology.

Why is vflowtech launching a flow battery system in Asia?

The aim is to drive manufacturing scale-up while also funding advancements in membrane technology and vanadium recycling pathways, which remain key factors that influence the long-term cost trajectory of flow battery systems. VFlowTech said it has deployments already spanning 10 countries, with a focus on Asia.

How many kWh can a vflowtech battery supply?

According to Kumar, VFlowTech's proprietary battery system, named PowerCube, has the capacity to supply a 50 kilowatt-hour (kWh) load for 24 hours per unit. For context, the average family in Singapore consumes 12 to 17 kWh of electricity each day. VFlowTech has developed a modular vanadium redox flow battery energy storage system, PowerCube.

Vanadium redox flow battery company VFlowTech has raised investment towards manufacturing, expansion and enhancement of digital ...

Discover how a flow battery startup is revolutionising energy storage, driving sustainability, and powering a greener future for Singapore.

Vflowtech, a Singapore-based innovator, is powering Jurong Island, an industrial hub,

with its vanadium redox flow batteries (VRFBs). ...

We speak to one of its co-founders, Dr Avishek about the company's work and plans for the future. Dr Avishek Kumar co-founded ...

Vflowtech, a Singapore-based innovator, is powering Jurong Island, an industrial hub, with its vanadium redox flow batteries (VRFBs). This project paves the way for a cleaner ...

Singapore-based energy storage company VFlowTech has raised US\$20.5 million in its latest funding round. The round was led by ...

Vanadium redox flow battery (VRFB) company VFlowTech has raised investment to scale up its manufacturing, extend its reach and enhance the digital capabilities of its tech. ...

VFlowTech is a Singapore based company that aims to produce the world's best Vanadium Redox Flow Batteries to the power the sustainable future with pure renewable energy.

VFlowTech, a provider of long-duration energy storage solutions, pulled in \$20.5 million in its most recent funding round, which was led by venture capital firm Granite Asia. ...

We speak to one of its co-founders, Dr Avishek about the company's work and plans for the future. Dr Avishek Kumar co-founded VFlowTech, a Singapore-based company ...

Vanadium redox flow battery company VFlowTech has raised investment towards manufacturing, expansion and enhancement of digital capabilities.

Singapore's VFlowTech has secured a substantial \$20.5M funding round to accelerate deployment of its vanadium redox flow batteries that aim to offer long-duration ...

Singapore-based energy storage company VFlowTech has raised US\$20.5 million in its latest funding round. The round was led by Granite Asia, with participation from new ...

Singapore, 22 October 2024 - Advorio Asia Pacific (Advorio), VFlowTech (VFT), and JTC today signed a Memorandum of Understanding (MoU) to ...

Discover how a flow battery startup is revolutionising energy storage, driving sustainability, and powering a greener future for Singapore.

Vanadium redox flow battery (VRFB) company VFlowTech has raised investment to scale up its manufacturing, extend its reach and ...

Singapore, 22 October 2024 - Advorio Asia Pacific (Advorio), VFlowTech (VFT), and JTC today signed a Memorandum of Understanding (MoU) to collaborate on scaling up vanadium redox ...

VFlowTech, a provider of long-duration energy storage solutions, pulled in \$20.5 million in its most recent funding round, which ...
