

**NKOSITHANDILEB SOLAR**

# **Singapore s largest energy storage power supply manufacturer**

## Overview

---

The Sembcorp Energy Storage System was launched in 2023. Commissioned in six months, the 285MWh system was Southeast Asia's largest ESS and the fastest in the world of its size to be deployed. What is Sembcorp energy storage system?

The Sembcorp Energy Storage System was launched in 2023. Commissioned in six months, the 285MWh system was Southeast Asia's largest ESS and the fastest in the world of its size to be deployed.

What is a battery energy storage system?

Battery energy storage systems (ESS) provide critical frequency and stability support to power grids. As one of Asia's largest battery operators, our energy storage portfolio is well-positioned to support the evolving needs of power markets as they increase their uptake of renewable energy. The Sembcorp Energy Storage System was launched in 2023.

What is the biggest energy project in Southeast Asia?

Officially inaugurated in early 2023 on the island which houses much of Singapore's industrial and energy infrastructure, the BESS project is the biggest of its kind in Southeast Asia. It was developed by Sembcorp in collaboration with the Singapore Energy Market Authority (EMA) after winning an EMA contract through a solicitation.

Will a large-scale energy storage system complement Singapore's efforts to maximise solar adoption?

Energy Market Authority (EMA) Chief Executive Ngiam Shih Chun said that the large-scale energy storage system will complement Singapore's efforts to maximise solar adoption, by storing and delivering energy despite the intermittent nature of solar power.

## Singapore s largest energy storage power supply manufacturer
