What is a R-32 small inverter chiller?

The R-32 Small Inverter Chiller series has been designed to meet the needs of the widest possible range of applications, from process cooling applications, to residential, commercial and data centers applications. All that to provide customers with an extremely flexible solution to their needs.

Who is inverters R Us?

inverters. Founded in 2003, Inverters R Us is one of the largest DC to AC power inverter distributors in the country. Consider us your one-stop shop for all your portable power needs as we sell more types of power inverters than anyone on the planet! At Inverters R Us, you can trust that we will be here for you today AND down the road!.

Is Inverters R Us a reliable company?

There is mixed feedback about Inverters R Us. Some customers have reported issues with the quality of their products and difficulties with returns. For instance, one customer ordered an inverter for \$434 and received it six days later, only to find that it did not meet their expectations. They have since been trying to return the product for over a month, but have had no success. Another customer, however, had a positive experience, praising the excellent service and product they received. The company's return policy is stated as 30 days on their website. However, some customers have expressed doubts about their ability to return products and get their money back.
