# **Solar cell module customs declaration**

## Overview

---

What is customs duty on solar panels?

According to TARIC, customs duty for photosensitive semiconductor devices, including photovoltaic cells whether or not assembled in modules or made up into panels; light-emitting diodes, code 8541409000, is 0%. In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541.40.60.15) is also 0%.

Are re-imported solar cells exempt from import regulations?

KLC further explained that domestically produced solar cells or modules that are re-imported are exempt from the aforementioned import regulations. Customs is entitled to exercise their authority to inspect such goods to confirm that the origin of the imported goods is indeed Taiwan.

When does a solar component importer have to register?

The amended list will be effective from Novem. Under these amendments, solar component importers of toughened (tempered) safety glass and photosensitive semiconductor devices, including photovoltaic cells, whether or not assembled in modules or made up into panels, must register the items.

Will India's BCD increase on solar PV cells & modules in 2022?

Tell us and we will take a look. India's Ministry of New and Renewable Energy (MNRE) announced in December 2021 an increase in the basic customs duty (BCD) on imported solar PV cells and modules, effective Ap. The BCD rose from a 14.5% rate in 2021 to 40% on solar PV modules and 25% on solar PV cells in 2022.

On Janu, USTR announced that the President had approved recommendations to provide relief to U.S. manufacturers and impose safeguard tariffs on ...

Accordingly, all the importers, customs broker and all stakeholders are advised that they **MUST** clearly specify the kind of diode with which Solar Panel/Module equipped with ...

Photovoltaic panels - specifications Over the decades, the prices of solar panels have

dropped drastically. Between 2008 and 2012, module prices fell by as much as 80%. It was possible ...

The addition of the gridlines and circuitry allows the solar cell to collect and forward the electricity; however, it does not result in the article with the new "name, character and use" since the end ...

India's Ministry of New and Renewable Energy (MNRE) announced in December 2021 an increase in the basic customs duty (BCD) on imported solar PV cells and modules, ...

Solar cells not exceeding 10,000mm<sup>2</sup> (15.5 inches<sup>2</sup>) in surface area which are integrated into a consumer good. Where more than one cell is permanently integrated, the ...

Importers of solar and wind energy components must register the items with the Renewable Energy Equipment Import Monitoring System before bringing them into the country ...

Ever tried assembling IKEA furniture without the manual? That's what shipping solar panels without proper customs declaration elements feels like - except the stakes are higher and the ...

KLC called on importers not to illegally import solar cells or modules manufactured in Mainland China via third countries. When importing goods, importers must accurately verify ...

Solar power generation systems include solar cell modules, battery packs, an inverter system, and a solar control system. Among these, the part that requires dangerous ...
