Solar container outdoor power connected to LED

Overview

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

How do shipping container lights work?

They are mounted on the twist-tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Floodlights. Shipping containers are not very large spaces with relatively low ceiling heights.
